

I urge you to reject NAB's petition 04-160. As a truck driver, XM Instant Traffic & Weather is invaluable to me and all the other drivers on the roads each day. I do not feel there is any reason for the FCC to be concerned about a personal business transaction. Maybe if there was a public radio that offered decent information, I might understand that you don't like the competition, but there is very little in the way of reliable news offered to the public. Please do not even consider this ridiculous petition.
